A horizontal number line with a starting point on the left, indicated by a short vertical tick mark. To the right of this starting point, there are 10 equal intervals, each marked by a vertical tick mark. The intervals are represented by a series of 10 adjacent rectangles, each with a vertical line on the left and a vertical line on the right, forming a continuous row of 10 boxes.

The image shows two groups of base ten blocks. The first group consists of two vertical rods, each representing 10 units, for a total of 20 units. The second group consists of two horizontal rods, each representing 10 units, for a total of 20 units. Together, these four rods represent 40 units. Additionally, there are ten small unit cubes arranged in a single row, representing 10 units. The total value represented by the blocks is 50 units.

The image shows two groups of base ten blocks. The first group consists of two vertical rods, each representing 10 units, for a total of 20 units. The second group consists of six vertical rods (each 10 units) and four individual small cubes (each 1 unit), for a total of 64 units. Together, they represent 84 units.
