The image shows two tens rods and five ones units. The tens rods are represented by two vertical rectangles, each divided into ten horizontal sections. The ones units are represented by five small squares, each divided into ten horizontal sections.

[illegible]

A grid of 8 rows of boxes for writing numbers. Each row contains 20 small boxes. The first three rows are full, the fourth row has one box missing at the end, and the fifth row has two boxes missing at the end.
